

Basic Navigation

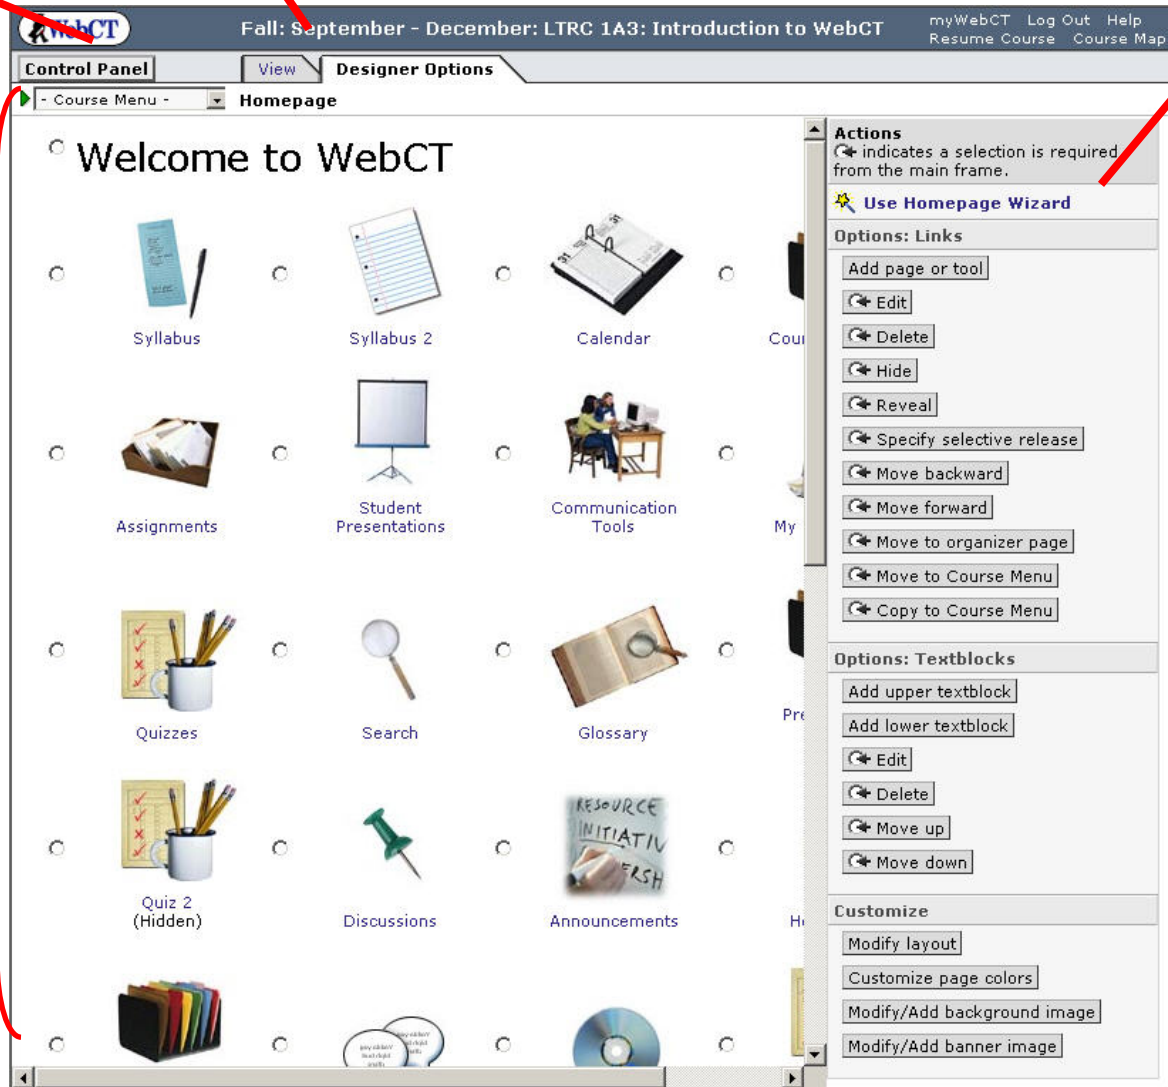

There are two views that are available to the designer. **Designer Options** allows you to modify your course. **View** allows you to see your course the way your students do.

myWebCT	Log Out	Help	ResumeCourse	CourseMap
Link to you're myWebCT and the list of courses	Logs out of your WebCT session	Provides Context Sensitive Help	Allows students to resume their place in Content Modules.	Provides a text only list of all links that provided in the course.

Control Panel

This link brings you to the control panel, where you will have access to all of the features of WebCT. From here, you can view / change course settings, upload / modify files, add or edit current pages or tools on your course, and most importantly, this is where you can manage your students / TA's.

This is the main area of the Organizer page. Here, your students will see all of the links / tools that are available to them. Using the links on the right, you can change the order of the links / tools, modify them, delete them and even hide them from your students (if you haven't reached that part of the course yet). At the top is a collapsible "Course Menu". You can choose to have this menu as it is shown here, or completely shown on a left-side menu bar (by clicking on the green

Use Homepage Wizard

For beginners, this wizard guides you, step-by-step, through various common tasks in the Homepage.

Options: Links

These are various options you have with the links on your homepage. To use them, you must first select the link you wish to change. Then choose the appropriate action for what you wish to accomplish.

Options: Textblock

If you use textblocks on your organizer page, This is the list of options you have to modify them.

Customize

These links allow you to customize the look and feel of your course. From here you can change color schemes, background images or layouts.
