

# My WebCT

Bookmarks	Global Calendar	Preferences	WebDAV	CourseFunctions
Brings you to two lists of bookmarks. One list is personal, the other is set by the LTRC.	The Global Calendar combines evens from all of your courses into one calendar.	Allows you to change accessibility preferences.	Provides the links required to use WebDAV.	Allows you to create/restore backups or to reset your course.

EntryPage	Log Out	Help
Brings you back to the log in page.	Logs you out of the current session.	Provides context sensitive Help.

The screenshot shows the myWebCT interface. At the top, there is a navigation bar with the WebCT logo and the text 'myWebCT'. On the right side of the navigation bar, there are links for 'Entry Page', 'Log Out', and 'Help'. Below the navigation bar, a welcome message says 'Welcome, John Smith' and the date 'March 12, 2004' is displayed. A row of buttons includes 'Bookmarks', 'Global calendar', 'Preferences', 'WebDAV info', and 'Course functions'. The main content area is divided into two columns. The left column is titled 'Courses' and shows a list of courses, with the first one being 'Fall: September - December' and 'LTRC 1A3: Introduction to WebCT' by John Smith, with the role of 'Designer'. The right column contains two sections: 'Announcements' with a message about WebCT 4.1, and 'Institutional Bookmarks' with links to support, resources, and the university index.

This section lists all of the courses that you are registered in. Here you will see the course title, the instructors name and your role in the course (Either Designer, TA, or Student). This list is organized first by term (fall, winter, spring) and then alphabetically.

Announcements	Institutional Bookmarks
General announcements provided by the LTRC.	General bookmarks for WebCT related links.
